REQ-1	As an administrator, I need to receive e-service requests through a centralized system instead of email, so that I can view request information right away.	3 pts
REQ-2	As an administrator, I need to see only the information relevant to each request, so that I can complete requests faster.	3 pts
REQ-3	As an administrator, I need to access a history of processed requests, so that I can refer to past cases whenever needed.	2 pts
REQ-4	As an administrator, I need to have the entire process of completing e-service requests to be on one platform, so that I can do my job faster and more efficiently.	5 pts
REQ-5	As a student, I need my requests to be processed as fast as possible, so that I don't wait for a long time.	1 pts
REQ-6	As an administrator, I need to filter and prioritize requests, so that I can handle critical requests first.	4 pts
REQ-7	As an administrator, I need an AI assistant that analyzes e-service requests and recommends appropriate actions, so that I can make faster and more consistent decisions.	5 pts
REQ-8	As a student, I need to receive notifications when my request status changes, so that I stay informed without repeatedly checking the system.	2 pts
REQ-9	As an administrator, I need to view request statistics and summaries, so that I can monitor workload and system performance.	3 pts
REQ-10	As a student, I need to receive clear feedback when my request is rejected, so that I understand what to do next.	1 pts
REQ-11	As an administrator, I need to see system-recommended priority levels, so that urgent requests are processed first.	3 pts
REQ-12	As a student, I need my personal and academic information to be protected so that my information remains confidential.	3 pts
REQ-13	As an administrator, I need to temporarily save a request review (draft decision), so that I can continue later without losing progress.	2 pts
REQ-14	As an administrator, I need automatic reminders for pending requests,	2 pts

	so that no requests stay unprocessed for too long.	
REQ-15	As an administrator, I need the system to warn me when approving a request violates academic policies, so that mistakes are avoided.	2 pts
REQ-16	As a student, I need to preview my request before submission, so that I can verify all the information is correct.	1 pts
REQ-17	As a student, I need to receive confirmation of when my request decision has been made, so that I can know what steps to take next.	1 pts
REQ-18	As an administrator, I need to see a student's request history before making a decision, so that I can identify patterns or abuse.	2 pts
REQ-19	As a head of department, I need to view only requests related to my department, so that my dashboard is not cluttered.	2 pts
REQ-20	As a registration staff, I need to verify that approved requests comply with university policies, so that academic regulations are enforced.	2 pts
REQ-21	As a registration staff, I need to finalize approved requests in the system (course addition, grade update, program update), so that the student record is updated.	1 pts
REQ-22	As an administrator, I need to review full academic information about the student (GPA, credit hours, transcript), so that I can make accurate decisions.	4 pts
